# GYLON<sup>®</sup> BIO-LINE

## GYLON<sup>®</sup> 3504

- + cuts downtime and the related high costs
- + can be used in standard and high pressure connections
- + replaces all conventional elastomer gaskets – reduced inventory
- + can be used for all chemicals and temperatures up to 260 °C – no risk of misuse
- + no intrusion into the piping – increased process reliability
- + high adjustment capability in case of vibrations, flange misalignment and high temperature cycles

## GYLON<sup>®</sup> 3504 has no problems with:

- Oils and greases (like EPDM)
- Price and ageing (like H-NBR)
- Temperatures (like NBR)
- Resilience (like PTFE)
- Acids and alkaline solutions (like silicone)
- Hot water and alkaline solutions (like Viton/FPM)

The solution:  
**GYLON<sup>®</sup> BIO-LINE**

**GYLON<sup>®</sup> BIO-LINE gasketing is covered by all international approvals mandatory for applications in the pharmaceutical industry, the food and dairy industry as well as in animal food production.**
